Profile

A technically adept, detail-oriented, client-focused professional and systematic problem-solver who enjoys helping others. I have a proven ability to quickly grasp new technologies, analyze and solve technical issues, communicate effectively within international teams and with clients, and manage technical projects from conception to resolution.

Professional Experience

Content Integrator | NDA (02/2026 - Present)

- Implementing and recreating web content within the CMS platform by extracting and adapting HTML/CSS-based UI elements into production-ready digital experiences
- Performing QA and ensuring visual consistency between staging websites and final implementations across digital display content
- Collaborating with existing web structures and front-end-oriented environments
- Troubleshooting and resolving technical problems efficiently, escalating complex issues when necessary

Application Consultant | EY, Belgrade (02/2022 - 05/2025)

- Collaborated with internal and external teams to ensure smooth operations and timely resolution of issues within a large-scale enterprise environment, contributing to a complex financial application for UK banking client
- Demonstrated strong English communication skills through daily collaboration with international colleagues using MS Outlook and Teams for chats, calls, and emails
- Gained routine experience with a ticket and issue tracking system (Jira) for managing tasks, analyzing, assessing and resolving or forwarding issues
- Proven ability to quickly adapt and learn in a fast-paced Agile team

Frontend Developer | Intelligent Betting Software, Belgrade (11/2020 - 08/2021)

- Utilized web development expertise to build and maintain a responsive back-office platform using Angular, TypeScript, HTML5, CSS3, SVG, SEO and Git
- Applied strong analytical skills to analyze, assess, and resolve application bugs
- Delivered face-to-face training by mentoring colleagues on fundamentals and Web design best practices, improving team output and fostering knowledge sharing

Value-Add Experience

Founder | Naturally Dance, Belgrade (05/2013 - 05/2020)

- Founded and scaled a successful dance school from the ground up, overseeing all operational aspects
- Acquired hands-on experience in marketing management, promoting values, and managing end-to-end logistics and real-time problem-solving for large-scale international events (1000+ attendees), while coordinating weekly class schedules
- Managed official website content (CMS) along with multiple associated projects on social media platforms (Facebook, Instagram, Twitter)
- Identified and researched customer needs and requirements
- Further developed experience in delivering face-to-face training through curriculum development and instruction for diverse student cohorts

Tools

- Jira, Agile/Scrum, MS Office Suite, CMS platforms, RESTAPI, HTML5, CSS3, JSON, Git, UI Implementation, Visual QA

Communication

- Excellent verbal and written English, with proven experience collaborating across international, cross-functional teams
